

721 Front Road South
Amherstburg ON, N9V 2M4

September 17, 2021

Dear Patient:

I will be taking a parental leave of absence beginning Sep 29, 2021 until January 1, 2022. While I am away Dr. Jovana Milic will be taking my place and serving all of your healthcare needs. I am confident Dr. Milic will provide excellent care in my absence. She has included the following summary of her training and background as an introduction prior to you seeing her in the office over the next 3 months:

"My name is Dr. Jovana Milic and I thank Dr. Cormier for the opportunity to take care of his patients for a period of time. I am originally from Windsor and happy to be back practicing in Southwestern Ontario. I studied at Western University for medical school, and then went on to complete my Family Medicine training at McMaster University in Hamilton. I am looking forward to having the opportunity to provide care to the residents of Amherstburg and work within the AFHT. See you at the clinic soon!"

As is the case when I am at the office, when required you may access my medical colleagues and all of the other members and services of the Amherstburg Family Health Team. If you are in need of emergency care while I am away, please call 911 or go directly to your nearest emergency department. If you are in need of urgent care, contact our office for an urgent appointment or access our after hours clinic.

While I am away, you will continue to have access to your medical records and results of any laboratory or other investigations that have been conducted by myself. If you need to discuss the results of any investigations you can call and make an appointment to speak with Dr. Milic.

If you require prescription medication renewals please have your pharmacy fax a request to our office and Dr. Milic will complete these or see you for a visit as necessary.

Sincerely,

Dr. Andrew Cormier
